Features

- Upgrades 75 MHz and higher speed Pentium processor-based systems
- 233 MHz IDT WinChip 2 microprocessor
- 3DNow! and MMX technologies
- 64K write-back cache
- Plugs into standard Pentium CPU socket
- BIOS update software for selected systems
- Limited lifetime warranty

Benefits

- New PC performance for today's software
- Superior 3D graphics, enhanced video and sound
- A fraction of the cost of a new PC
- Extends the life of older Pentium processor-based PCs

Product Specifications:

- Supports Socket 5, Socket 7, and Super7 platforms
- Includes heatsink/cooling fan
- Supports single processor systems
- Auto-detect voltage regulator
- Automatic clock multiplier

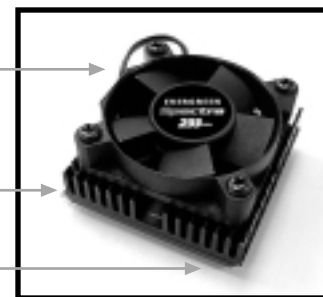

Physical Dimensions:

- Width: 1.97", 50.0mm
- Length: 2.06", 52.3mm
- Height: 1.04", 26.4mm
